### DETAILED ACTION

Claims 1-43 have been examined.

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 11, 12, 14, 16, 19-24, 28, 29, 31, 33, 36-40 are rejected under 35

U.S.C. 102(b) as being anticipated by Shambroom, U.S. Patent No. 5,923,756 A.

As per claims 1-7, 11, 12, 14, 16, 19-24, 28, 29, 31, 33, 36-40, Shambroom discloses a method, a processor readable medium, and an apparatus for providing a client with access comprising:

creating a log-in record including an encrypted identifier (see column 8, lines 31-41, figure 3, item 400);

receiving a log-in data for the client (see column 9, lines 2-6; figure 3, items 200 and 358);

authenticating access of the client based on data from log-in data and data from the log-in record (see column 9, lines 22-28);

and

Art Unit: 2132

sending authentication data to the primary system (see column 9, lines 39-45; figure 3, items 300 and 364).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 13, 15, 30, and 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shambroom, U.S. Patent No. 5,923,756 A as applied to claims 1 and 19, respectively, above, and further in view of Kaufman et al., U.S. Patent No. 5,418,854 A.

As per claims 13, 15, 30, and 32, Shambroom teaches the method and medium of claims 1 and 19. Kaufman et al. show :

verifying the client identifier and the client password correspond to the client (see column 8, lines 26-33).

Therefore, it would have been obvious to one of ordinary skill in the computer art at the time the invention was made to combine the method and medium with verifying to have extra security.

***Allowable Subject Matter***

5. Claims 8-10, 17, 18, 25-27, 34, 35, and 41-43 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
